

Christmas Tree Safety Tips from the State Fire Marshal's Office

- * Make a fresh cut on the bottom of the tree.
- * Place in a reservoir type tree stand and water daily.
- * Never use lights with frayed cords or empty sockets.
- * Mini lights are safest; they produce less heat.
- * Turn off all Christmas lights prior to leaving your home or going to bed.
- * Safely dispose of your tree before it becomes dangerously dry.
- * Never burn your tree or any part of it in a fireplace.
- * Do not use candles on or near your tree.
- * Be sure to *test* your smoke detectors.

*Have a fire safe
holiday season!*
